“Along the Munich-Venice road following Europe’s longest groundwater river”

## Jesolo - Treviso

Every Tuesday, booking required

Departure from the seaside town of Jesolo to reach the elegant, historic city of Treviso. The outstanding cycle track, known as the Friendship Cycle Track, is the last leg of the Munich-Venice road and goes through picturesque landscapes featuring abundant flora and fauna. The entire track follows the River Sile, the longest groundwater river in Europe, which leads us through the colourful Northern Lagoon, and to Treviso, known as ‘little Venice’. The first leg crosses via Salsi to reach the Venetian Lagoon with its spectacular views to be admired until we reach Portograndi after cycling for approximately two hours. We will then ride through the towns of Quarto D’altino, Musestre, Casale sul Sile and Casier, where we will stop for lunch and can admire the resting ground for the typical boats used for transport in the past (‘Burci’). We will arrive at Treviso at around 3 p.m. for a short city tour which will include Prosecco wine and food tasting. At about 4 p.m. a bus will take us back to Jesolo Paese town hall and we will be in Jesolo by 5 p.m.

## LIO PICCOLO BY BIKE

“Dunes, vegetable gardens, lagoon valleys and pink flamingos”

### Cavallino - Lio Piccolo

Wednesday morning from 6th June to 25th July

Departure from the small coastal villages, skirting Ca'Savio beach with its natural dunes and coastline woods and passing through fields of local produce. Crossing the bridge on the Pordelio canal takes us to the hamlet of Treponti. Canals and shoals alternate with cultivated fields and houses dotted here and there to lead to Corte del Prà, a lovely square with a landowner's mansion, courtyard, stables and oratory. Here the lagoon takes over and the road winds along the banks of the fishing valleys to reach the ancient, solitary hamlet of Lio Piccolo, surrounded by water, immersed in silence interrupted only by the flights and calls of the many bird species. Black-winged stilts nest on the shoals: at this time it's quite common to see the couples fussing around their nests. You can hear their unmistakable cry as they swoop, light and fascinating, above your head. But the real attraction is the flamingos. For some years now these incredible waders have settled in the lagoon and are particularly numerous at Lio Piccolo, from where you can observe them with the naked eye.

**Departure early morning:** Departure early morning: 09.00 o'clock Piazzale of restaurant Camapiello - Cavallino; 09.35 o'clock Cavallino Bike in Via delle Batterie - Cà Ballarin (possibility to rent a bike); 10.00 o'clock Batteria Pisani - Ca'Savio  
**Return:** approximately 13.00 o'clock.

## GIROLAGUNA

“A visit to the Northern Lagoon of Venice by bike and boat”

### Jesolo - Laguna Nord - Cavallino

Every Friday from Piazza Brescia or Conche di Cavallino  
from 8th June to 21th September

**A fantastic excursion by bike and boat in the territories of the Northern Lagoon, which is a UNESCO World Heritage Site.**

Departure by bicycle from Piazza Brescia, Jesolo Lido, to Conche di Cavallino and then along the banks of the River Sile - Piave Vecchia, a full immersion in the history of the land of the Serenissima, to Lio Maggiore in the silence of the Northern Lagoon fishing valleys. Here the cycle track ends and it's time for a welcome break. At Lio Maggiore we board the pontoon boat (boat for transporting bicycles in the Lagoon) which takes us a short but fantastic way across the water to Cavallino. The return ride is along the Casson canal and through Cavallino gate, skirting along the golden sands of the coast.

**Departure:** 09.00 o'clock Piazza Brescia at the Touristic information office  
**Departure:** 10.00 o'clock Conche del Cavallino (close to Ponte di Cavallino)  
**Return:** approximately 15.00 o'clock.

**Conditions of the route:** cycle paths, paths completely flat, suitable for everyone (asphalt + dirt road).

**Fee includes environmental guide SlowVenice (Italian, English, German)**

## THE LAND OF THE RIVER PIAVE

“The River Piave and reclaimed land: stories of land and water”

### Jesolo (Cortellazzo) - Torre di Fine - Eraclea

Thursday morning: from 7th June to 26th July  
and from 6th September to 20th September

Cycling along the ancient Litoranea Veneta (a canal linking Venice with Trieste) takes us to Cortellazzo, a quaint little port and fishing village at the mouth of the River Piave, and the reclaimed land of Torre di Fine, Brian and Eraclea. A boat bridge takes us across the river, considered sacred to the homeland because it became the front line during the First World War, and then we cycle to explore a territory rich in history, culture and traditions, touching the renowned Northern Adriatic beaches and going through rural hamlets, seeing draining pumps, water works, natural oases and crops typically grown on reclaimed land. There is a visit to a farm (Azienda Agricola La Fagiana) which owns one of the area's last paddy fields; we cycle through coastal woods and waterways linked to Italy's history and once back at our destination we can choose to taste some of the territory's finest produce.

**Departure:** 09.00 o'clock Cortellazzo - Piazza del Granatiere  
**Return:** approximately 13.00 o'clock

**Conditions of the route:** cycle paths, low traffic routes, paths completely flat, suitable for everyone.

**Fee includes environmental guide SlowVenice (Italian, English, German)**
